Summary

Android Developer with **5.2 years** shipping apps with **1M+ downloads**, now building a white-label **Kotlin Multiplatform banking app** at Avaloq. Expert in **Kotlin, KMP, Jetpack Compose and MVVM/Clean Architecture**, with a record in crash-free stability (**99.6%**), performance, mobile security and legacy migrations.

Technical Skills

Languages & Multiplatform: Kotlin, Java, Coroutines, Flow, StateFlow, SharedFlow, KMP, Compose Multiplatform, expect/actual, iOS framework export
Architecture & UI: MVVM, Clean Architecture, MVI, Repository pattern, Multi-module, Jetpack Compose, Material, XML Views, LiveData
Jetpack & AndroidX: ViewModel, Lifecycle, Navigation, Room, DataStore, Paging 3, WorkManager, CameraX, BiometricPrompt
DI, Build & CI/CD: Hilt, Dagger, Koin, KSP, Gradle KTS, Version catalogs, Git, GitHub Actions, Bitrise
Data & Networking: Ktor, Retrofit, OkHttp, SQLDelight, gRPC, Firebase, SQLite, GraphQL basics
Quality, Perf & Security: Baseline Profiles, R8, LeakCanary, SSL pinning, Android Keystore, OAuth / JWT, JUnit, MockK, Espresso, Macrobenchmark, Compose testing, detekt, ktlint, SonarQube, Mockito, Play Store releases

Experience

Avaloq Aug 2025 - Present
Kotlin Developer *Pune, India*

- Building Avaloq's **new mobile banking app** from scratch on **Kotlin Multiplatform** with a 20+ engineer team.
- Core team: I build the **white-label platform and SDKs**; one KMP core ships as template app, **SaaS** or **SDK**.
- Widget-based screens and opt-in products, configurable per bank through **remote configuration**.
- Live for **apoBank**, **Credit Agricole next bank** and Swiss regional banks, replacing the classic native apps.
- Shared logic with expect/actual and iOS framework export; native UI in **Jetpack Compose** and **SwiftUI**.

Hyperlink Infosystem Nov 2021 - Aug 2025
Android Developer *Ahmedabad, India*

- Shipped client apps in 3 to 4 months, including **Panels** for MKBHD (**1M+ downloads**) and DFM's **iVestor**.
- Migrated legacy apps to **Kotlin, MVVM and Clean Architecture**, reaching **99.6% crash-free sessions**.
- Cut cold start by **35%** and APK size from **90 MB to 7 MB** with modularization and R8.
- Secured iVestor's trading and IPO flows: **SSL pinning**, Keystore storage, **JWT/OAuth**, live WebSocket prices.
- Built an early **KMP** project with SQLDelight and Ktor, plus offline-first features on Room and DataStore.
- Adopted AI-assisted tooling for code reviews and documentation across the team.

Infosys Jul 2021 - Nov 2021
System Engineer *Pune, India*

- Built **Scala data pipelines** for large datasets and sped up queries through storage partitioning.

Aavid Software Jan 2020 - Jun 2020
Android Intern *Pune, India*

- Built a location-based anomaly detection app with a **Firebase** backend and real-time map tracking.

Projects

Panels | *Kotlin Multiplatform* 1M+ downloads

- MKBHD's wallpaper app: **1M+ downloads**, **99.6% crash-free**; early KMP with Compose and SwiftUI, open source.

iVestor | *Android* 50K+ downloads

- Dubai Financial Market's investor app: trading, portfolio and **IPO subscriptions** with live prices.

LMN8 | *Compose Multiplatform* Live on Google Play

- Crypto-erase, in-place encryption and remote wipe; **Compose Multiplatform**, Rust crypto over UniFFI, gRPC.

LMN8 v2 | *Kotlin Multiplatform + Rust* In progress

- Private chat, calls, sharing and crypts on every device; building the Android app with live chat sync, an offline outbox and notifications.

Festiv | *Compose Multiplatform* In internal testing

- Social app for festival plans, migrated from Flutter to **Compose Multiplatform** for Android and iOS.

StudEasy | *Android* 10K+ downloads

- Regional-language learning app for State Board students: animated lessons, quizzes and instant results.

Power Pay | *Android* 50K+ downloads

- Arunachal Pradesh electricity bill payments; brought in to turn around a poorly reviewed app.

Ozank | *Android* 1K+ downloads

- Fiat and crypto hybrid bank for sending money abroad, with OAK token transfers, KYC and biometric security.

Krushley | *Flutter* 1K+ downloads

- Dating app built in **Flutter**: swipe matching, chat and video date requests.

Nuwater | *Flutter*

- Water delivery service with separate customer and driver apps and live location tracking for drivers on the road.

Footprint Finder | *Android*

- Family and friends GPS locator that announces a connection's location by voice, in any of 40 languages.

Saferpay | *Android*

- Payments app that combines Google Pay style money transfers with WhatsApp style messaging.

Sportyze | *Flutter*

- Android and iOS app for preschools with parent, child and coach roles, progress tracking and online or offline classes.

Education

Modern Education Society's College of Engineering 2017 - 2021
Bachelor of Engineering (B.E.), Computer Science *Pune, India*
